

One Stop Centre under Global Fund Grant

1. Under the Global Fund grant (2022-26), One Stop Centres (OSC) were implemented at 74 sites in 25 States by Plan India as Principal recipient under technical guidance from NACO. One Stop Centers are established for HRGs (H/TG and PWID) and Bridge Population with a person centred and resource effective approach to deliver an integrated HIV prevention care-cascade services to new and uncovered key and bridge population that are beyond the reach of traditional HIV programmes. This approach supplements the core objective of NACP Phase V, aiming to address the needs of high –risk populations facing stigma, discrimination, and lack of awareness. The OSC provides two types of services (a) essential clinical services such as HIV, STI and screening and (b) Value added services .
2. Currently, all 74 OSCs are on boarded across 25 States comprising 34 centres for the Bridge population (BP), 20 centres for People Who Inject Drugs (PWID), and 20 centres for Hijra/Transgender (H/TG) persons. State and typology wise distribution of OSCs is placed below
